Mechanical Engineering student with hands-on experience in automation, control systems, and hardware integration. Will make a significant impact in your next role.

EDUCATION

Case Western Reserve University, Cleveland, Ohio

GPA(4.0): 4.0 | **Mechanical Engineering, B.S.E.** (May 2027)

SKILLS + LANGUAGE

Software: SolidWorks (CSWA Certified), MATLAB (Proficient), Arduino, Python, Studio5000, FTView, Aveva InTouch, Origin, Oscilloscope

Hardware/Tools: Saw, Sand, Lathe, Solder, Mill, Drill, 3D Printing, Laser Cutting

Language: English (Native), Spanish (Learning), Mandarin (Intermediate-Advanced)

WORK EXPERIENCE

Systems Co-Op | RoviSys | Aurora, OH | (Summer 2025)

- Designed HMI for control system on \$1MM+ glass project, improving user workflow
- Assisted in directing and inspecting the company's electrical panel deliverables
- Advocated and suggested the purchase of hardware, supporting project success
- Validated PLC alarming, creating valuable safety interlocks and reducing downtime

Teaching Assistant | CWRU Engineering | Cleveland, OH | (Fall 2024 - Current)

- Designed interactive lab modules introducing MATLAB and Arduino concepts
- Host open lab times, autonomously instructing students about class material
- Support students in the lab with hands-on education for engineering projects

Front-Of-House | Pho San Jose | San Jose, CA (SEP 2022 - FEB 2023)

- Led the team running front-of-house, serving 80+ people at once
- Led closing duties, managed financials, cleaned restaurant top-to-bottom
- Advised management on improving menu and service practices

LEADERSHIP + RELEVANT EXPERIENCE

Leader | Way Awesome Kids Camp | San Jose, CA (Seasonal, Jun - Aug, 2017 - 2023)

- Planned cross-town trips and created games for up to 17 children at once
- Led team of 8 to serve kids, created 5-week schedule, and led meetings
- Established digital database for worship song sheets for entire staff to use

Mechanical Team Member | CWRUBotix | CWRU (Spring 2025)

- Worked alongside engineering team to develop an underwater competition robot
- Designed a static manipulator to grasp simulated polyps for a competition task
- Single-handedly developed waterproof strain relief for I/O cable

Competitor | CLASH Debate Club | STOA Speech and Debate (Aug 2017 - Mar 2020)

- Achieved 2nd place in the U.S. among all high schoolers in Team Policy Debate
- Researched 20+ hours a week, creating 1000+ page briefs on current events
- Delivered hundreds of limited-preparation speeches on wide range of topics

RELEVANT COURSEWORK

- Design for Manufacturing, Control of Mechanical Systems, Design of Mechanical Elements, Design of Fluid and Thermal Elements, Numerical Methods, Dynamics, Heat Transfer/Fluid Mechanics/Thermodynamics, Mechanical Engineering Analysis, Strength of Materials

ABOUT ME

- I enjoy following Jesus, learning Chinese, teaching/playing piano and guitar, and playing sports — especially badminton, volleyball, and baseball.
